

SCHOOL FACILITIES

A recent survey of college students was performed to determine if there was any correlation between levels of cleanliness and academic achievement. The findings showed that 88% of students reported that the lack of cleanliness becomes a distraction when cleanliness levels were low. The impact of cleanliness in creating a good learning environment is simply an established fact.

The challenge for today's school administrator is to provide superior levels of cleanliness within an environment of shrinking budgets. Professional building Services provides cost effective cleaning programs to the world of education through increased staff productivity, the latest maintenance technology, a proprietary quality control program and one of the most experienced management and supervisory teams in the facility services industry.

A tradition of excellence since 1981, PBS recruits, performs background investigations, trains and then supervises teams of professionals to provide your school or college comprehensive cleaning and maintenance solutions that meet your budget while exceeding the most stringent standards of cleaning performance.

On-site supervision, trained floor and carpet care professionals and hospital grade disinfection techniques for restrooms, shower and locker rooms provide your staff and students a safe, healthy environment to work and learn.

Specialized programs are customized for your school's individual needs. Day care centers, elementary and parochial schools, trade and technical schools, colleges and universities, corporate training centers and business schools all have unique needs and challenges. PBS has programs to meet your schools unique needs at the most competitive rates available.
